Fictional example: Morgan wants to practice asking for clarification early in a project.

Use an ordinary or fictional example, with a clinician when appropriate. Insight can be translated into one observable experiment.

Practice task

Choose a belief to loosen, a cooperative action, a support, and a review date.

1. What I tried, or what happened in the fictional example:

2. What I noticed before, during, and after; what remains uncertain:

3. What helped, did not help, or was outside my control:

4. What action would show a small change in direction? My optional adjustment or support request:

Scope and adaptation

Explore patterns as collaborative hypotheses. Do not infer personality from sibling position, treat recollections as recovered facts, blame people for coping, or frame structural inequality as a lack of effort.
