Fictional example: Morgan's group shares one practical support request before offering help.

Use an ordinary or fictional example, with a clinician when appropriate. Adlerian social interest and Ubuntu can meet through chosen mutual care.

Practice task

Design a circle of encouragement that includes consent, reciprocity, and the option to receive rather than contribute today.

1. What I tried, or what happened in the fictional example:

2. What I noticed before, during, and after; what remains uncertain:

3. What helped, did not help, or was outside my control:

4. How does this community make room for both giving and receiving? My optional adjustment or support request:

Scope and adaptation

Explore patterns as collaborative hypotheses. Do not infer personality from sibling position, treat recollections as recovered facts, blame people for coping, or frame structural inequality as a lack of effort.
