One Thing with Flexibility - Practice worksheet

Choose a tiny task, define a short focus interval, and plan how to return after interruption.

Adults; supported use as appropriate | 15 minutes

Fictional example: Taylor reads one paragraph while allowing a needed movement break.

Use an ordinary or fictional example, with a clinician when appropriate. Focused attention can be adapted to capacity and interruptions.

Practice task

Choose a tiny task, define a short focus interval, and plan how to return after interruption.

1. My chosen or fictional situation, and what I know about it:

2. My response to the practice task above:

3. What amount of focus is realistic today?

4. An optional next step, support, adaptation, or reason to stop:

Scope and adaptation

These are selected DBT-informed educational exercises, not comprehensive DBT, phone coaching, or crisis care. Use individualized clinical assessment and existing care plans. No cold-water immersion, breath holding, intense exercise prescriptions, exposure assignments, or risk scoring are included. Behavior chains and opposite-action decisions need clinician guidance when risk or complexity is present.
