Pros and Cons at the Choice Point - Practice worksheet

Create a four-part comparison of acting on an urge or using an alternative, without shaming the urge.

Adults; supported use as appropriate | 15 minutes

Fictional example: Taylor wants to abandon a difficult task and considers a brief support break.

Use an ordinary or fictional example, with a clinician when appropriate. Comparing options can include immediate and delayed consequences.

Practice task

Create a four-part comparison of acting on an urge or using an alternative, without shaming the urge.

1. My chosen or fictional situation, and what I know about it:

2. My response to the practice task above:

3. Which consequence matters most at this choice point?

4. An optional next step, support, adaptation, or reason to stop:

Scope and adaptation

These are selected DBT-informed educational exercises, not comprehensive DBT, phone coaching, or crisis care. Use individualized clinical assessment and existing care plans. No cold-water immersion, breath holding, intense exercise prescriptions, exposure assignments, or risk scoring are included. Behavior chains and opposite-action decisions need clinician guidance when risk or complexity is present.
