Practice task

Map trigger, meaning, emotion, protection, and current support in a private fictional or ordinary example.

1. What I tried, or what happened in the fictional example:

2. What I noticed before, during, and after; what remains uncertain:

3. What helped, did not help, or was outside my control:

Scope and adaptation

Joint exercises require private safety assessment, voluntary participation, and appropriate EFT training. Do not invite joint vulnerability, enactments, or disclosure where coercion, violence, fear, or retaliation may be present. Use individual support and appropriate referrals instead. This collection concerns attachment-based Emotionally Focused Therapy, not tapping or Emotional Freedom Techniques.
