Environment in the Field - Review journal

Review an attempt at environment in the field and choose what to keep, change, or leave aside.

Adults; supported use as appropriate | 10 minutes

Fictional example: Rae's fatigue is affected by shift schedules and limited transport.

Use an ordinary or fictional example, with a clinician when appropriate. Experience is shaped by social and physical conditions.

Practice task

Place a concern in a map that includes culture, work rules, relationships, resources, and sensory conditions.

1. What I tried, or what happened in the fictional example:

2. What I noticed before, during, and after; what remains uncertain:

3. What helped, did not help, or was outside my control:

4. What becomes visible when the wider situation is included? My optional adjustment or support request:

Scope and adaptation

Keep experiments collaborative and low intensity. Chair-based or unfinished-business exploration belongs with appropriately trained clinicians after assessment, with a stop cue and an observing alternative. Do not interpret symbols, recover memories, force body focus, or use cathartic confrontation.

Original AI-assisted educational draft; independent clinical review pending. Version 1.0. Background: Gestalt Therapy: An Introduction. Full source links and scope: library.morethantherapy.org/approaches/resources/GST-A17-5
