Multiple Views of Progress - Review journal

Review an attempt at multiple views of progress and choose what to keep, change, or leave aside.

Adults; supported use as appropriate | 10 minutes

Fictional example: Devin values rest while a supervisor values speed.

Use an ordinary or fictional example, with a clinician when appropriate. People can value different signs of improvement.

Practice task

Create separate descriptions of progress for yourself and a relevant supporter without forcing agreement.

1. What I tried, or what happened in the fictional example:

2. What I noticed before, during, and after; what remains uncertain:

3. What helped, did not help, or was outside my control:

4. Which goal is yours, and which needs negotiation? My optional adjustment or support request:

Scope and adaptation

Acknowledge distress and structural barriers before asking about change. Do not use exceptions or compliments to dismiss harm. A personal scale is a conversational aid, not a validated outcome measure, risk screen, or reason to withhold assessment.
