Solution-Focused Group Exchange - Review journal

Review an attempt at solution-focused group exchange and choose what to keep, change, or leave aside.

Adults; supported use as appropriate | 10 minutes

Fictional example: A group member wants help noticing useful exceptions rather than receiving ten suggestions.

Use an ordinary or fictional example, with a clinician when appropriate. A group can exchange questions without prescribing solutions for one another.

Practice task

In pairs or a group, offer one preferred-future or exception question after permission and let the speaker decide what fits.

1. What I tried, or what happened in the fictional example:

2. What I noticed before, during, and after; what remains uncertain:

3. What helped, did not help, or was outside my control:

4. Which question expands choice for the person speaking? My optional adjustment or support request:

Scope and adaptation

Acknowledge distress and structural barriers before asking about change. Do not use exceptions or compliments to dismiss harm. A personal scale is a conversational aid, not a validated outcome measure, risk screen, or reason to withhold assessment.
