Practice: Skills rehearsal - 17 minutes

Practice reconnecting with a provider or support service after time away. Model one short example. Invite a speaker, listener, or observer role; rehearse a low-stakes version and switch roles only by choice.

Reflect together - 4 minutes

What wording makes asking again possible? Ask what fit, what did not fit, and what would make the exercise more accessible. Do not interpret another person's response.

Choose a next step - 3 minutes

Invite one optional action, support request, or question to carry forward. Passing is a valid closing response. Confirm how to seek appropriate support outside the activity.

Facilitator fit and boundaries

Use fictional, low-intensity examples; do not recreate substance-use cues or give withdrawal or medication advice. Follow individualized care plans.

Offer observation, private writing, or a fictional example. Adapt instructions and group size to access needs. No client responses are collected by this page.
