IMR Group: Medication Benefits and Concerns - Supported Practice Lab

You may write, draw, think quietly, use fiction, observe, or pass. Share only what you choose. This educational activity is not a test.

Fictional example: Casey wants to discuss daytime tiredness before making any change.

1. What is known in the fictional example, and what needs checking?

2. Prepare a benefits, side effects, access, and follow-up discussion sheet for a prescriber. My notes, drawing, or possible response:

3. What information will help the prescriber understand your experience?

4. One optional next step, support, or reason to revise the idea:

You can pause or stop. Ask your facilitator for an alternative if this does not fit. No identifying information belongs in shared copies. Independent clinical review pending.
