A Cultural Meaning Check - Supported Practice Lab

You may write, draw, think quietly, use fiction, observe, or pass. Share only what you choose. This educational activity is not a test.

Fictional example: A participant uses an image the facilitator interprets differently.

1. What is known in the fictional example, and what needs checking?

2. Identify assumptions about a symbol, practice, or value and ask how the maker understands it. My notes, drawing, or possible response:

3. Whose meaning should guide the conversation?

4. One optional next step, support, or reason to revise the idea:

You can pause or stop. Ask your facilitator for an alternative if this does not fit. No identifying information belongs in shared copies. Independent clinical review pending.
