Care Without Assumptions

Family Relationships | 30 minutes | 2-8 participants | Adults; caregivers or family groups as appropriate

Purpose

Ask what help a relative wants rather than assuming what care should look like.

Materials: Paper or a printable handout, Pens or an accessible writing alternative, Optional blank cards or simple drawing materials

Invite and agree - 3 minutes

Name the purpose and the right to pass, observe, write, or use fiction. Agree that people share only their own experiences and do not promise absolute group confidentiality.

Introduce the example - 3 minutes

Someone recovering from an ordinary stressful week wants space. Ask what is known and what is still a guess.

Practice: Skills rehearsal - 17 minutes

Ask what help a relative wants rather than assuming what care should look like. Model one short example. Invite a speaker, listener, or observer role; rehearse a low-stakes version and switch roles only by choice.

Reflect together - 4 minutes

How can caring include respecting no? Ask what fit, what did not fit, and what would make the exercise more accessible. Do not interpret another person's response.

Choose a next step - 3 minutes

Invite one optional action, support request, or question to carry forward. Passing is a valid closing response. Confirm how to seek appropriate support outside the activity.

Facilitator fit and boundaries

Use fictional cooperative situations. Do not use joint role-play to address abuse, coercion, or safety concerns; arrange appropriate individual support.

Offer observation, private writing, or a fictional example. Adapt instructions and group size to access needs. No client responses are collected by this page.
