Comparison Context Cards

You may write, draw, think quietly, use fiction, or pass. Share only what you choose. This is an educational practice activity, not an assessment.

An optional fictional starting point

One person compares their progress with a friend's highlight reel.

1. Choose an ordinary or fictional example. You may keep details private.

2. Try this task: Identify information hidden by a simple comparison between two people.

3. What context changes the comparison?

4. One optional next step, support request, or question I want to carry forward.

You can pause or stop. Ask your facilitator for an alternative if this activity does not fit. Keep identifying details out of any shared copy.
