Time Estimate Reality Check

You may write, draw, think quietly, use fiction, or pass. Share only what you choose. This is an educational practice activity, not an assessment.

An optional fictional starting point

A person repeatedly underestimates preparation time.

1. Choose an ordinary or fictional example. You may keep details private.

2. Try this task: Estimate an ordinary task, try or simulate a small part, and revise the estimate without grading speed.

3. What did the estimate leave out?

4. One optional next step, support request, or question I want to carry forward.

You can pause or stop. Ask your facilitator for an alternative if this activity does not fit. Keep identifying details out of any shared copy.
