Progress Review Without Grades

You may write, draw, think quietly, use fiction, or pass. Share only what you choose. This is an educational practice activity, not an assessment.

An optional fictional starting point

A character completes only part of an experiment.

1. Choose an ordinary or fictional example. You may keep details private.

2. Try this task: Create a review using observations, learning, and adjustments instead of success labels.

3. What did the partial result teach?

4. One optional next step, support request, or question I want to carry forward.

You can pause or stop. Ask your facilitator for an alternative if this activity does not fit. Keep identifying details out of any shared copy.
