Recovery Capital Map

Addiction Recovery | 45 minutes | 3-12 participants | Adults with appropriate facilitation

Purpose

Participants identify recovery-supporting resources and gaps.

Materials: Paper or a printable handout, Pens or an accessible writing alternative, Optional blank cards or simple drawing materials

Invite and agree - 3 minutes

Name the purpose and the right to pass, observe, write, or use fiction. Agree that people share only their own experiences and do not promise absolute group confidentiality.

Introduce the example - 3 minutes

Use a fictional, ordinary example chosen by the facilitator; personal disclosure is optional. Ask what is known and what is still a guess.

Practice: Mapping - 32 minutes

Draw four quadrants: personal, social, community, and practical resources; map existing supports and one connection to strengthen. Create a simple diagram or table. Label relationships, gaps, or choices; participants decide which connections fit.

Reflect together - 4 minutes

Which support could you access this week? Ask what fit, what did not fit, and what would make the exercise more accessible. Do not interpret another person's response.

Choose a next step - 3 minutes

Invite one optional action, support request, or question to carry forward. Passing is a valid closing response. Confirm how to seek appropriate support outside the activity.

Facilitator fit and boundaries

Use fictional, low-intensity examples; do not recreate substance-use cues or give withdrawal or medication advice. Follow individualized care plans.

Offer observation, private writing, or a fictional example. Adapt instructions and group size to access needs. No client responses are collected by this page.
