Fictional example: Riley's irregular work hours make routine care harder.

Use an ordinary or fictional example, with a clinician when appropriate. Daily needs depend on resources and health as well as habits.

Practice task

Map supports for rest, nourishment, prescribed care, and manageable routines without offering medical instructions.

1. What I tried, or what happened in the fictional example:

2. What I noticed before, during, and after; what remains uncertain:

3. What helped, did not help, or was outside my control:

4. Which practical support is missing from the design? My optional adjustment or support request:

Scope and adaptation

An original DBT-informed house metaphor for educational reflection, not an official standardized DBT assessment, diagnostic drawing test, or comprehensive DBT. The maker defines meanings. Offer another metaphor if housing is sensitive, and allow omissions or fiction. Do not interpret rooms, colors, or omissions as evidence of pathology or safety.
