Asking for Accommodations - Practice worksheet

Draft a request for written information, quieter space, flexible timing, or another personally relevant support.

Adults; supported use as appropriate | 15 minutes

Fictional example: Casey understands appointments better with a written summary.

Use an ordinary or fictional example, with a clinician when appropriate. Accommodations can reduce environmental barriers rather than demanding more endurance.

Practice task

Draft a request for written information, quieter space, flexible timing, or another personally relevant support.

1. My chosen or fictional situation, and what I know about it:

2. My response to the practice task above:

3. What change would improve access to care or participation?

4. An optional next step, support, adaptation, or reason to stop:

Scope and adaptation

Original IMR-informed companion exercises, not the official IMR manual, fidelity assessment, or complete IMR program. Use collaborative clinical assessment and existing care plans. Do not change medication independently, challenge distressing beliefs through confrontation, or use worksheets to determine urgency. Increased or concerning symptoms need appropriate clinical assessment.

Original AI-assisted educational draft; independent clinical review pending. Version 1.0. Background: Illness Management and Recovery Evidence-Based Practices KIT. Full source links and scope: library.morethantherapy.org/recovery/resources/IMR-A16-2
