Stress and Avoidance Alternatives - Practice worksheet

Identify one stressor, what the current behavior temporarily changes, and two feasible alternatives to try.

Adults; supported use as appropriate | 15 minutes

Fictional example: Noah uses viewing to postpone a stressful email.

Use an ordinary or fictional example, with a clinician when appropriate. Alternative coping should address the actual function and available resources.

Practice task

Identify one stressor, what the current behavior temporarily changes, and two feasible alternatives to try.

1. My chosen or fictional situation, and what I know about it:

2. My response to the practice task above:

3. What alternative addresses the underlying task or need?

4. An optional next step, support, adaptation, or reason to stop:

Scope and adaptation

Adult-only, non-explicit educational resources. The searchable phrase pornography addiction is not used here as an established diagnosis. Frequency, high desire, or moral distress alone does not establish a disorder; assess impaired control, functioning, distress, consent, and context with a qualified clinician. Respect consensual sexuality and chosen goals; no explicit media, aversion exercises, forced disclosure, or coercive monitoring.
