Relationship Agreements about Media - Concept brief

Understand the idea behind relationship agreements about media and consider whether it fits your context.

Adults; supported use as appropriate | 8 minutes

Fictional example: Noah and a partner have never clearly discussed expectations about sexual media.

The idea

Partners can clarify agreements without assuming identical preferences.

An ordinary example

Noah and a partner have never clearly discussed expectations about sexual media.

What this can look like

Privately identify preferences, boundaries, and questions; joint discussion requires safety and voluntary participation.

Check the fit

What needs clarification before a broken agreement is assumed? You may disagree with the framing, use fiction, or decide that this approach is not useful today.

A useful distinction

A chosen change goal and a clinical diagnosis are different questions. Address functioning, control, consent, values, and distress without assuming that sexual expression itself is pathological.

Reflection

What needs clarification before a broken agreement is assumed?

Scope and adaptation

Adult-only, non-explicit educational resources. The searchable phrase pornography addiction is not used here as an established diagnosis. Frequency, high desire, or moral distress alone does not establish a disorder; assess impaired control, functioning, distress, consent, and context with a qualified clinician. Respect consensual sexuality and chosen goals; no explicit media, aversion exercises, forced disclosure, or coercive monitoring.
