Practice task

Prepare non-explicit questions about ethical media choices and personal privacy for a qualified educator; do not collect or share sexual material.

2. What I noticed before, during, and after; what remains uncertain:

Scope and adaptation

Adult-only, non-explicit educational resources. The searchable phrase pornography addiction is not used here as an established diagnosis. Frequency, high desire, or moral distress alone does not establish a disorder; assess impaired control, functioning, distress, consent, and context with a qualified clinician. Respect consensual sexuality and chosen goals; no explicit media, aversion exercises, forced disclosure, or coercive monitoring.
