Money and Everyday Stability - Review journal

Review an attempt at money and everyday stability and choose what to keep, change, or leave aside.

Adults; supported use as appropriate | 10 minutes

Fictional example: Jordan struggles to balance travel costs and groceries.

Use an ordinary or fictional example, with a clinician when appropriate. Practical stability can support recovery without moralizing spending.

Practice task

Map one weekly money pressure, a protective routine, and a resource for financial or material assistance.

1. What I tried, or what happened in the fictional example:

2. What I noticed before, during, and after; what remains uncertain:

3. What helped, did not help, or was outside my control:

4. Which need requires external support rather than tighter self-discipline? My optional adjustment or support request:

Scope and adaptation

Adapt to individualized assessment and the person's chosen recovery goals. Worksheets do not manage intoxication, overdose, or withdrawal. Abrupt cessation of alcohol or benzodiazepines can be dangerous: seek medical guidance rather than using a worksheet to stop or taper. Follow existing emergency and overdose-prevention plans; medication choices belong with qualified prescribers.
